## THREAD ALERT

It was only a matter of time before DwellStudio's sophisticated printed bed linens moved beyond the bedroom. Teaming up with textiles giant Robert Allen, Canadian-born Christiane Lemieux, DwellStudio's creative director, has translated her distinctive designs into a collection of 72 printed, woven and textured fabrics for the home. Made for mixing and matching, the graphic patterns, bold colourways and varying scales of prints play off one another beautifully in Christiane's signature trad-with-a-twist style.

**FABRIC** (from left) DwellStudio for Robert Allen Plush Dotscape in Peacock, Vintage Plumes in Camel, Gate in Citrine, and Snake Chain in Brindle, all from \$80 per yard, through designers, [robertalldesign.com](http://robertalldesign.com); [dwellstudio.com](http://dwellstudio.com).
